

# Basic guide to rabbit control

## WHAT YOU CAN DO ABOUT IT

How do you control rabbits? It all depends on where they are living. This guide tells you what you can do about common rabbit problems. More than one method is usually needed.

Warrens or lots of burrows

Use a machine with a ripper or a bucket to destroy the burrows

Single or isolated burrows.

Fumigate burrows or dig them up

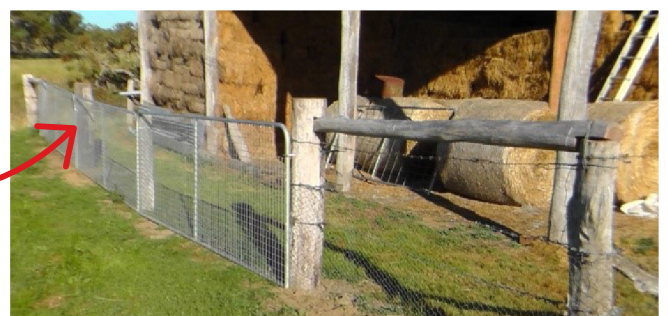

Rabbits under a low-set building

Dig a barrier into the ground to keep rabbits out

Rabbits in a hayshed

Fence it off, dig netting into the ground, rabbit-proof the gates

## Are you a landholder?

If you're a landholder, you must take all reasonable steps to control rabbits on your property.

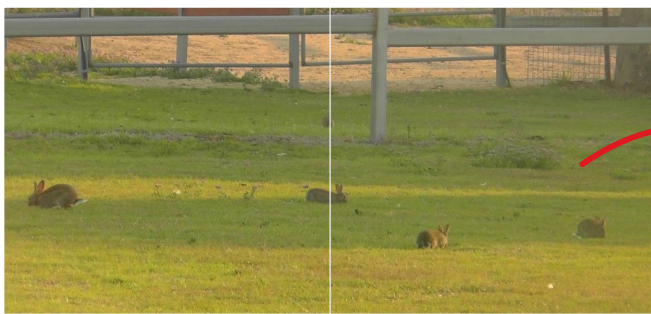

Rabbits in rubbish piles or log piles

Rabbits living under materials lying on the ground

Rabbits in weed thickets like lantana.

Rabbits not living on your property (only coming to feed)

## Top tips:

- Remove the harbour where rabbits are living.
- Destroy or fumigate burrows.
- Get materials off the ground.

Obtain a 'Permit to light fire' from your local fire warden  
Burn in accordance with conditions on the permit

Remove or store materials over 40cm above the ground  
Collapse or fumigate any exposed burrows

Spray weeds, remove dead weeds, collapse any burrows

Pindone baiting or cage trapping
